Singularity University

An opportunity to bring people to a common aspiration that is to do better, to be better, and to make a positive impact on their lives. GN

Singularity University is a benefit corporation that provides educational programs, innovative partnerships and a startup accelerator to help individuals, businesses, institutions, investors, NGOs and governments understand cutting-edge technologies, and how to utilize these technologies to positively impact billions of people.We are educators who draw on our Silicon Valley location to offer cutting edge programs:- The Global Solutions Program (GSP) â€“ convenes future leaders, entrepreneurs, and technologists for 10 weeks to work on team-based technology solutions to widespread global challenges.- The Executive Program (EP) â€“ dives into the tools that corporate specialists and entrepreneurs need to ride the wave of accelerating change.- Exponential Conferences â€“ explore how exponentially accelerating technologies are impacting individual verticals, such as medicine, finance and manufacturing.

We focus on global impact. We encourage local innovation through technology with our global impact competitions. Winners receive sponsorships to attend our Global Solutions Program and carry home the tools for disruption.We Inspire & Inform. We provide thoughtful coverage of singularity-related news through our sister site Singularity Hub â€“ sharing our assessments of technological or scientific progress with our extended community of readers.Beyond the classroom, we are agents of change. Since our inception in 2008, SU has empowered individuals from more than 85 countries to apply exponentially growing technologies, such as biotechnology, artificial intelligence and neuroscience, to address humanityâ€™s grand challenges: education, energy, environment, food, health, poverty, security, space and water. In just six years, our alumni, partners and members have generated more than 100 startups, and numerous patents and ideas to help advance this mission.Coming together, we create new futures.In our SU Labs incubator, we launch companies that will impact the world of tomorrow. Our portfolio companies gain preferred access to our network of connections â€“ necessary to build and launch sustainable organizations.
