

Impact Hub

Impact Hubs provide access to resources, knowledge, talent, and spaces to support your entrepreneurial initiatives for a better world.

From Amsterdam to Johannesburg, Singapore to San Francisco, Impact Hub has evolved into a rapidly expanding, diverse global network of over 16,000+ members in 100+ locations. Impact Hubs provide access to resources, knowledge, talent, and spaces to support your entrepreneurial initiatives for a better world. What began as a single location in 2005 in London has evolved into a collaborative global community that now inspires, connects and enables people across the world to sustainably impact society. In our co-work space, meeting spaces and during acceleration programs, impactmakers work & connect to take their business to the next level. Each Impact Hub has its own local flavour, responding to the needs of the impactmakers locally. When travelling, you can work from another Impact Hub & immediately feel at home by making connection through the Impact Hub community there. Step into any one of our Impact Hubs worldwide and immerse yourself in the local experience of a global movement.
