

Open Homes

A community that believes everyone should have a safe place to call home.

"We all face unexpected situations. For millions of people, that means having to leave their home". Through Open Homes, hosts have already offered temporary housing to over 11,000 people displaced by natural disasters, conflict, or illness. Your extra space can turn into a meaningful experience, not just for someone in need, but also for your community, family, and self. More informations: [click here](#).
