

Project author or developer:
'Bundesverband Schleppen und Schleusen' (trade association for smuggling people)

Where:
DE / Germany / Berlin

Website:
schleuser.net

Schleuser.net is a lobby organization for business enterprises specializing in undocumented cross border human traffic. This lobby organization carries the name 'Bundesverband Schleppen und Schleusen' (trade association for smuggling people), short 'schleuser.net'. The outspoken objective of schleuser.net is image improvement for 'SchlepperInnen und SchleuserInnen' (men and women who engage in undocumented cross border traffic), the correction of the official media portrayal, and, "politically", the dissolution of the association, after the law has been adjusted by legalizing any kind of public transport.
