

Decidim: free open-source participatory democracy for cities and organizations

Decidim helps citizens, organizations and public institutions self-organize democratically at every scale.

Decidim was born in Barcelona in 2016, thanks to the Barcelona City Council. As a software project is deeply inspired by the 15M movement who reclaimed democracy for the people. Decidim is run by an association, who manage the code, its extension and governance.

"We are a free-open source software aimed at cities and organizations. We are a participatory infrastructure. We work for a stronger and transparent democracy". - source official website.

Decidim is being used in more than 100 cities in 20 countries of the world.Â
