ARTISTA X ARTISTA

Artista X Artista emerges from the need to find support from the artistic community itself to respond to the needs of emerging creators. This platform aims to be positioned as a space and agent of collaboration into a wide network of art residencies that make possible the cultural exchange between different local contexts. It works to generate life and work experiences that enrich both, visitors and local participants, through the doble circulation of knowledge. _____ Artista X Artista es una iniciativa del Estudio Carlos Garaicoa que se desarrolla, bajo diversos formatos, con el objetivo de establecer relaciones de horizontalidad entre la escena artĂstica mĂs joven y una red creciente de instituciones y agentes culturales a nivel internacional. Busca consolidarse dentro de una amplia red de residencias artĂsticas internacionales, que posibilite el intercambio cultural entre diferentes contextos locales.
