Economy for the Common Good (ECG) is a global social movement that advocates an alternative economic model, which is beneficial to people, the planet and future

The common good economy puts the common good, cooperation and community in the foreground. Human dignity, solidarity, ecological sustainability, social justice and democratic participation are also described as values of the common good economy. The movement behind the model started off in Austria, Bavaria and South Tyrol in 2010 and quickly spread to many countries throughout the EU. It now has active groups in Africa, Latin America, North America and Asia.[2] As of 2021, the movement consists of over 11,000 supporters, 180 local chapters[3] and 35 associations.[4]
