The HUB is designed to facilitate the creation of sustainable impact through collaboration

The HUB (UK) is about the power of innovation through collaboration. At the HUB, people from every profession, background and culture are being united by one thing: the imagination and drive to pursue enterprising ideas for the world. These are the people who see and do things differently and have entrepreneurial passion to create sustainable impact. In the belief that there is no shortage of good ideas to solve the issues of our time, the HUB states there is an acute lack of collaboration and support structures to help make them happen. The HUB was founded to address this need. The network created spaces that combine the best of a trusted community, innovation lab, business incubator and the comforts of home. Spaces with all the tools and trimmings needed to grow and develop innovative ventures for the world. But above all, spaces for meaningful encounters, exchange and inspiration, full of diverse people doing amazing things. To date, there are 25+ open HUBs and many more in the making, from London to San Francisco, Johannesburg, Melbourne and Sao Paulo, Milan, Rome, etc.
