The David Sheldrick Wildlife Trust (KENYA) is a small flexible charity, established in memory of David Sheldrick, famous Naturalist and founder Warden of Kenya's giant Tsavo East National Park in which he served from 1948 until 1976. Helping save the lives of orphaned Elephants and Rhinos who are ultimately released back into the wild is just some of the many wildlife commitments The David Sheldrick Wildlife Trust is involved in. The Trust runs seven full time Desnaring teams, two mobile Veterinary Units, and is active in a Community Outreach Program along with working with the communities in an educational capacity locally, and through articles for the Wildlife Clubs of Kenya, the Press and Radio Programs. The Trust has also provided advanced training in wildlife management for promising students.
