Love Difference is an association that runs a network of cooperation driven by art to promote a civilization that exalts differences and that encourages the cohabitation between different cultures in the Mediterranean countries. Love Difference GENERATE LOVE INSTEAD OF INTOLERANCE
WHY?

Because cultural differences are a value. Because through art it is possible to contribute to a responsible transformation of society. Because we activate artistic projects that promote the encounter and the dialogue among the different Mediterranean countries.

"Love Difference is an Artistic Movement for an InterMediterranean Politic, to bring love to where tragic conflict arises between peoples and cultures." Michelangelo Pistoletto

Love Difference is a non-profit association established in June 2002 by Cittadellarte - Fondazione Pistoletto together with international institutions, cultural centres, researchers, curators and artists. It presently counts 650 members.
