

Co-op Power

A multi-class, multi-racial movement for a sustainable and just energy future

Co-op Power is a consumer-owned renewable energy cooperative. We operate within a regional network of autonomous Local Organizing Councils to create a multi-class, multi-racial movement for a sustainable and just energy future. Co-op Power's current Local Organizing Councils include Co-op Power Metro East (Greater Boston), Co-op Power Franklin County, Co-op Power Hampshire County, Co-op Power Hampden County, and Co-op Power of Southern Vermont. Co-op Power is owned by over 420 members in New England and New York. Membership is open to all and entitles you to discounts on products and services inside of our network. In addition, membership equity supports the development of community-scale clean energy projects and to build Co-op Power.
