

California Federation of Time Banks

A supportive network of Time Banks in the State of California

The California Federation of Time Banks is a collaborative network committed to connecting, sharing information, and supporting the expansion of Time Banking in the state. From the largest cities to the smallest towns, we celebrate the many innovative ways time banking can address social issues and creatively fill the gaps by strengthening relationships in our neighborhoods. Based on the fundamental values of respect and reciprocity, we are a creative learning community that shares experiences, trades best practices and empowers each other to work for a healthy, sustainable future.
