

Y Worlds

A new collaborative platform that invites you to work with us to organize complex knowledge and visualize the systems that propel our lives

Project author or developer:
Y Worlds

Where:
US / United States / Hennepin

Y Worlds is a cooperative dedicated to the rethinking and reworking of everything complex. We share a pervasive sense that our current system of organizing, explaining and grappling with anything complex is broken and in need of some revolutionary thinking and doing. We ask you to become part of this enterprise. Make it your own. Make it an example of what dedicated, thoughtful, compassionate people can do as a cooperative effort.
