Green Festivals are a celebration of the green economy, social justice and ecological balance in 5 cities nationwide

At Green Festival®, a project of Green America and Global Exchange, we're celebrating what's working in our communities and around the world - for people, business and the environment. Think of Green Festival® as a walk through a sustainable community. It begins with finding solutions to help make our lives healthier- socially, economically, environmentally. Neighbor-to-neighbor connections are formed and skills are shared to empower people to create positive change in the world.
