

Casa dos Caracois

'Casa dos Caracois' (Snails House) is a travelling project developing bioconstruction and sustainability solutions

'Casa dos Caracois' (Snails House) is a travelling project by two galician snails developing bioconstruction (autoconstruction, natural materials, reuse, bioclimatic architecture) and sustainability (ecology, permaculture, responsible consumption, decrease) solutions over the world.

Project author or developer:
Casa dos Caracois

Where:
ES / Spain / A Coruña
