

Dreamicon Valley is situated at the former Iron Curtain between Austria and Hungary. Here, in nearby the UNESCO world heritage Neusiedlersee, dreams become true. The members of the free association Dream Academia are working on a better society of tomorrow. In the past they used new, more direct forms of organisation and left out classical old-fashioned ways to support young startups, talents and dreams from all over the world. In Dreamicon Valley a new model of society is building up and forming a model-region for better living and working together in the future.
