

NEW LIFE

Building on the introduction of organic farming practices and native species of Andean cereals and tubers (potatoes)

Project author or developer:
NEW LIFE

Where:
EC / Ecuador / Distrito Metropolitano de Quito

Website:
gtne.org/?q=node/296

Building on the introduction of organic farming practices and native species of Andean cereals and tubers (potatoes), a micro-savings system, and reforestation activities, this partnership aims to further empower women and improve local communities' food security.
