People Money Game “speed date your local economy!”

People. Money. Game. It’s about people. It’s about money. It’s a game. The People Money Game is an interactive, participatory workshop. It is learning by doing and playing rather than listening to information.

Learn how individuals, businesses, voluntary groups and local government exchange with each other. Learn how to connect underused resources to unmet needs in your community. Learn what happens when you introduce different kinds of currency to the exchange process.

People have taken part in the People Money Game in the UK, USA, Germany, Austria, Netherlands, Switzerland, Belgium and Sri Lanka. Book an experienced facilitator or download the instructions under a Creative Commons License here: <http://valueforpeople.co.uk/#events>
