Pick-app

Pick-app is a webapp and a website that enable the matching of supply and demand of picking up people from/to places of interest, commercial places and nightclubs in the city of Biella (Italy). Why carpooling? Because we can save the environment (first of all), fuel and the driving licence (if we are drunk) and itâ€™s also possible making new friendship.info@pick-app.it

Project author or developer:
Biella carpooling

Where:
IT / Italia / Biella
