Betahaus is a coworking space in Berlin, Hamburg, Sofia and Barcelona.

At betahaus | Berlin you can work from Monday to Friday 8am to 8pm. If you book the 24/7 extra you can even work weekends and during the night.

Of course, you could always work at a train station, or the airport terminal. However, thatâ€™s not usually very pleasant.

Weâ€™ve envisioned a space that functions as a combination of a Vienna-style coffee house, a library, a home office, or a university campus. We combine the best aspects of these locations, and use them to slowly build the idea of betahaus.ur team consists of highly-talented people from different disciplines, such as design, architecture, and more. At betahaus, we seek to implement our own ideas from work and life, as well as to invite other designers to exhibit, test, and further develop their ideas and prototypes in our space. Who knows what may emerge from this flow of ideas! Apart from separate meeting rooms, large eventspace, an fablab and our cafÃ© on the ground floor for relaxed entertainment, we have a coworking space of approximately 1500 square metres. Of course, we provide access to printers, scanners, and free wi-fi â€” all of that should be a given!
