The Blueproject Foundation is a multidisciplinary arts centre and creator of quality content, aimed primarily at offering a respectful and in-depth vision of modern and contemporary artistic creation. Thanks to its 500 square meters, spread over two floors, the building presents collective unreleased exhibitions to the viewer, from private collections, as well as ambitious personal projects carried out by renowned artists of our time.

This is a centre for reflection and debate on all current aesthetic and intellectual issues that helps to better understand and enjoy the culture that surrounds us. The Blueproject Foundation offers a lively and direct approach to great works of art in an environment that serves, simultaneously, as an experimental laboratory for new ideas and a useful platform for young artists.

The large exhibition area of the foundation is divided into two complementary spaces. Il Salotto is reserved for the most celebrated artists and iconic works, while the Sala Project is characterised by its multidisciplinary dimension, which allows it to house work by both promising artists and renowned figures from the art world.

The Blueproject Foundation opens its doors to all kinds of ideas, creations and projects, from performance, dance or music to sculpture or installations, as well as painting and video. Its halls are open to any artistic format or aspiration that offers a stimulating view on current and future aesthetics.
