We are a small, traditional Umbrian community living in a beautiful 15th century farm hamlet. The property sits at 600 meters on top of a hill surrounded by 40 hectares of olive groves, pastures, oak forests and a vineyard. Our vision at Monestevole is to build a model sustainable community in the Green Heart of Italia that celebrates the best of traditional living, providing a beautiful and inspiring home for tribe members from around the world. Tribewanted Monestevole is a different experience for every guest, the important thing is to come with an open mind. Everyone can participate as much or as little as they want, we only ask our guests to respect the local traditions and culture and to clean their plate after meals. Enjoy!
