GB / Regno Unito / Devon

Website:
www.riverford.co.uk/aboutus

Riverford brings fresh seasonal organic food from our farm to your door.

We want organic to be available to all - our boxes are often up to 20% cheaper than supermarkets and that's without taking into account our free delivery.

We've been growing organic veg for over 20 years so know all the weird and wonderful looking vegetables and have lots of tips on how to use them from basic cooking skills to dishes you might find in a restaurant.

Riverford aims for a fair deal for all from customers to staff while always looking for the option that has the smallest environmental impact.
