Preventing the release of pollutants into the environment

Ecodom - Consorzio Italiano Recupero e Riciclaggio Elettrodomestici - is a not - for - profit private consortium established as a Compliance Scheme by the leading producers of large household appliances, extractor hoods and water-heaters operating on the Italian market to manage discarded Electrical and Electronic Equipment (EEE) .

Ecodom, founded in 2004 and operational since 2008, collects WEEE (Waste Electrical and Electronic Equipment) from Collection Facilities and treats it at specialist sites. Ecodom's mission is to prevent the release of pollutants into the environment through the correct treatment of waste equipment, and to maximise the recycling of materials back into the production cycle, combining efficient treatment processes with environmental protection, in accordance with Italian legislation on Waste Electrical and Electronic Equipment (Legislative Decree 49/2014).
