

Local Vouchers SCEC

Complementary currency in Italy for the local territory reaching a 'Solidarity that walks'

Arcipelago Æ CEC (IT) is a non for profit organization which issues the Æ CEC. The local vouchers Æ CEC are not a complementary currency. It's just a voucher to get a significant price cut that members choose to apply each other through a voluntary act, from which they can redeem at any time. The rate of acceptance of Æ CEC voucher (in Italian Solidarietà che cammina, literally Solidarity that walks) left to the discretion of the associated offering products or services; acceptance that usually goes from 10 to 30%. The Æ CEC is made available to the community and used solely in conjunction with the euro and has the objective of anchoring the wealth to the local territory reinvesting in the circuit, encouraging local production.
